

Tax Authority Open API

Shaam – The Tax Authority

What will we talk about today?

- API Services Overview
- Businesses Preliminary Actions for Consuming Services
 (What Is Required from End Customers)
- Software Companies Preliminary Actions for Development with the Services
- Developers Registration Process for the Developer Portal
- Solution Architecture Including Code Examples

API Services Overview

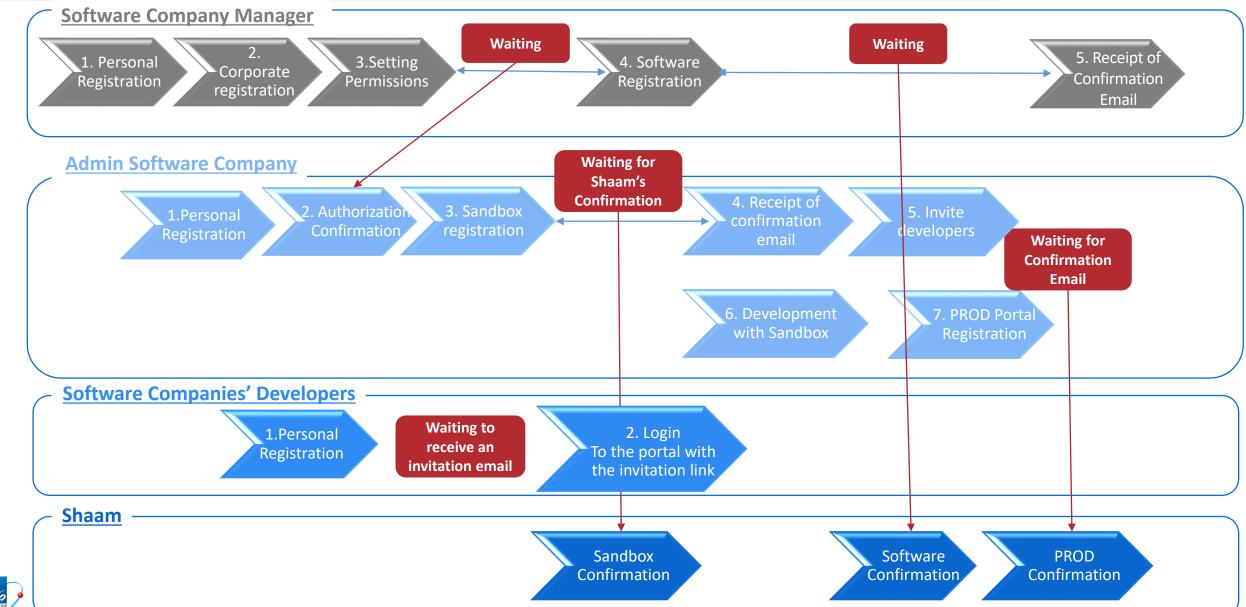

Services via API

- Transferring Donation Receipt Data.
- Collection of Services for the Implementation of the "Israel Invoices" Model.
- Reporting and Payment of Income Tax Advance Payments.
- Periodic Reporting and Payment of VAT.
- Withholding Tax Certificates from Tax Coordination and Retirement Systems.

Taxes Open API – Software Registration Process, Registration to the Development Portal, and Certificates

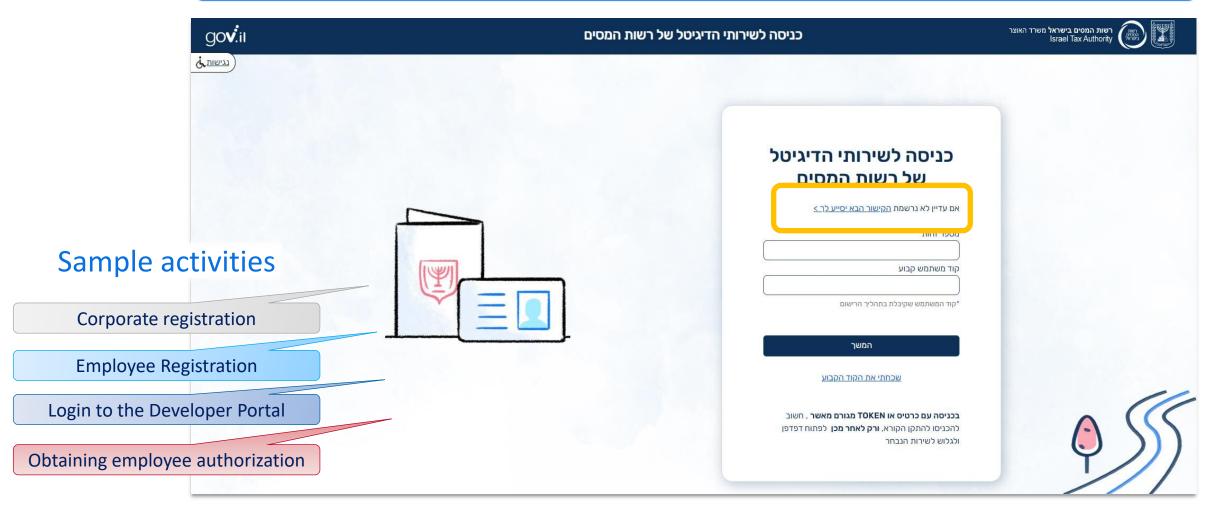

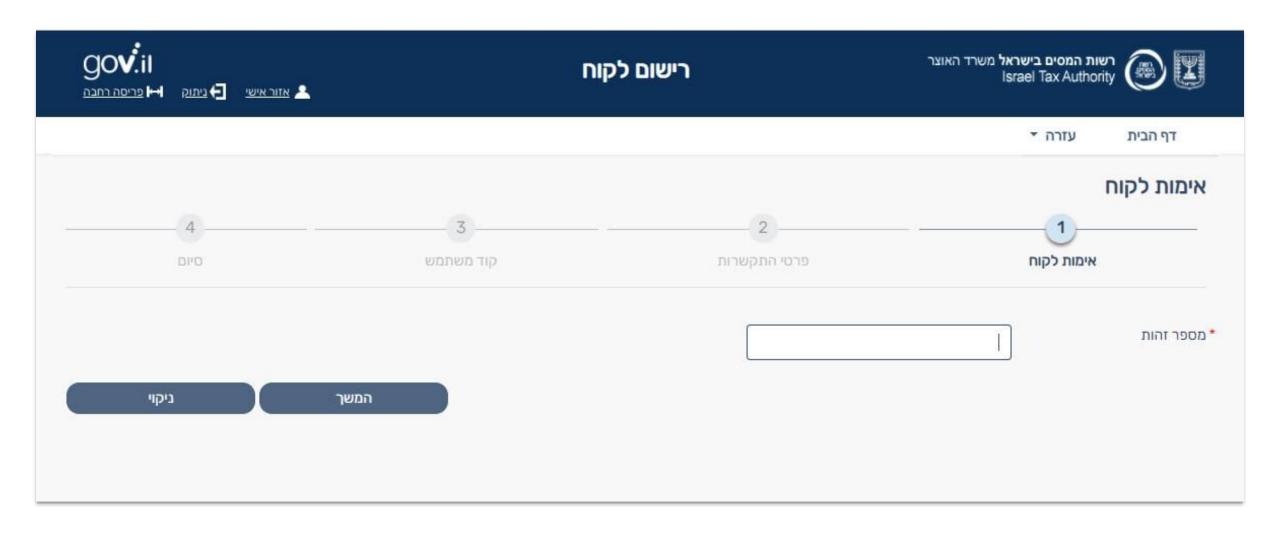

For any activity with the Tax Authority, identification of a registered user is required.

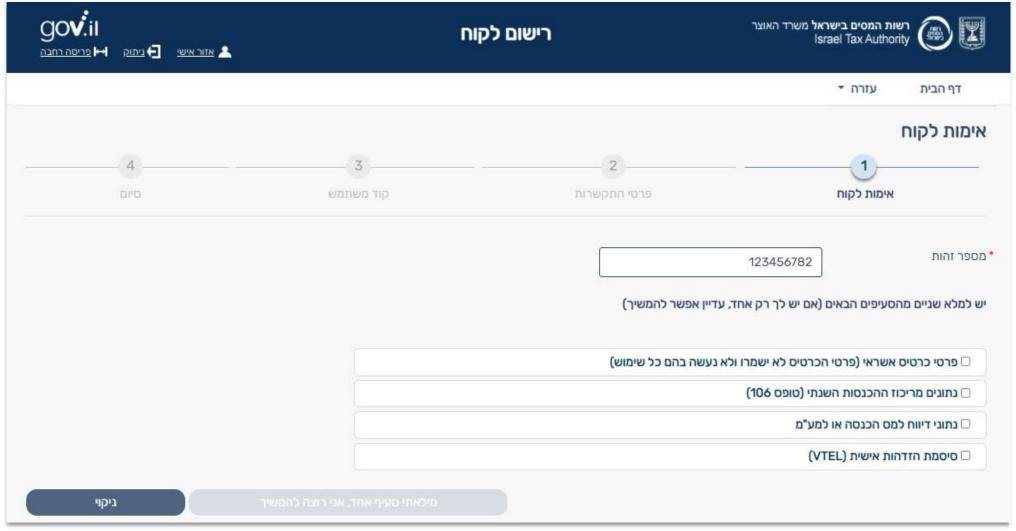

Answer 2 questions

(or just 1 question from this group, plus 2 more from another list)

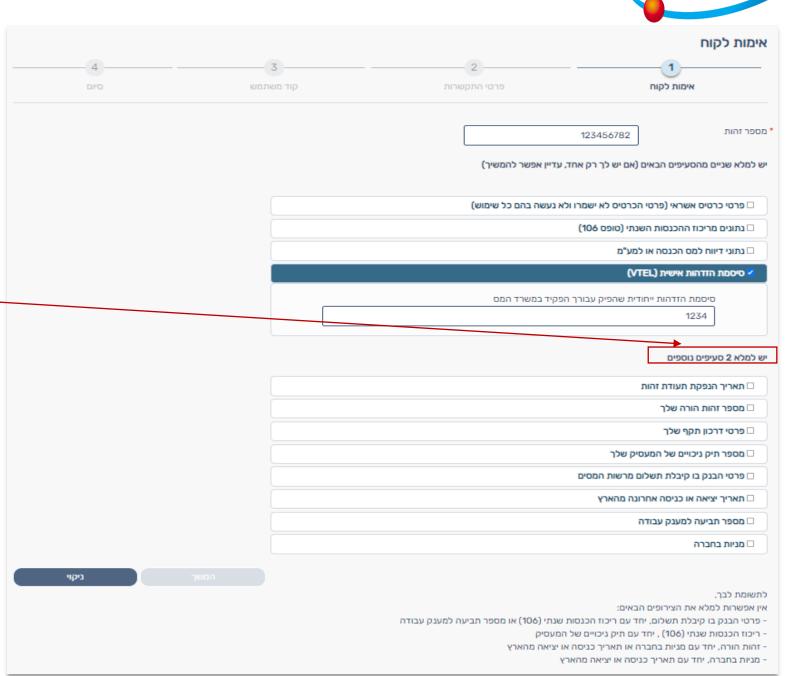

Additional Questions

onlyone questionat the top, they will receive an additional list of questions, from which they will need to answer 2 more questions.

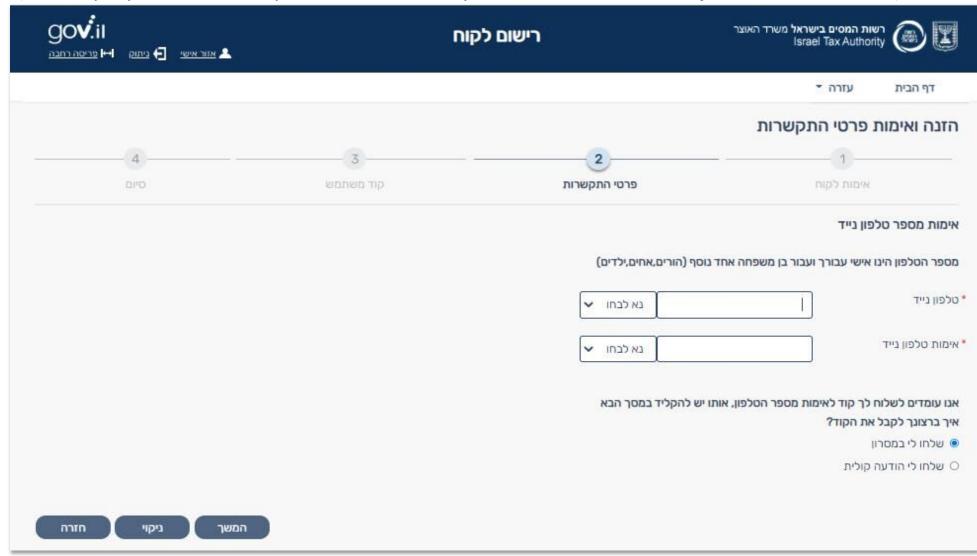

If the customer answered **two questions** at the top,they won't
get any more questions

Filling in contact details

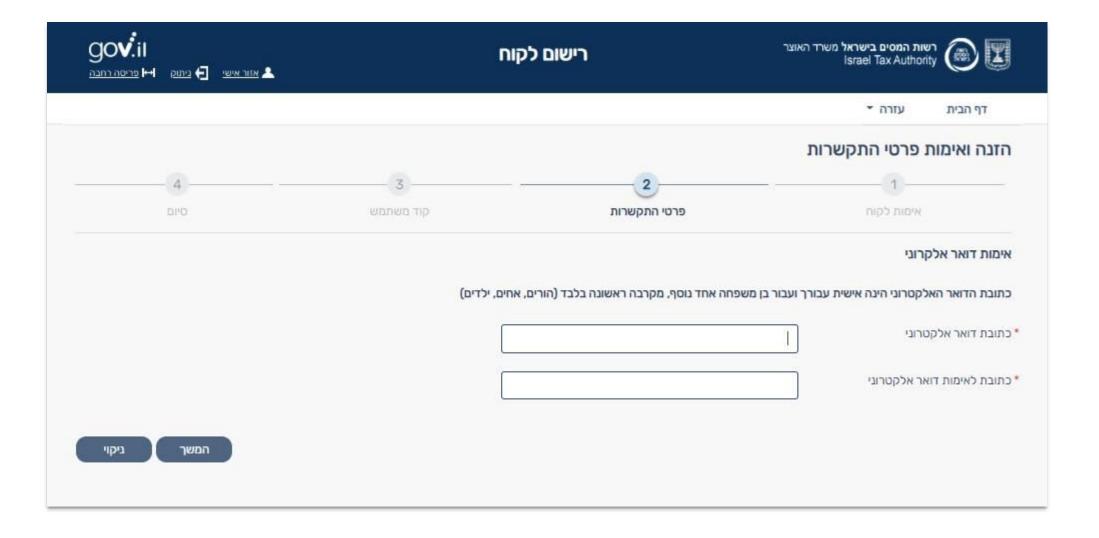

(after a proper answer to questions, or directly at the entrance with a **personal** smart card)

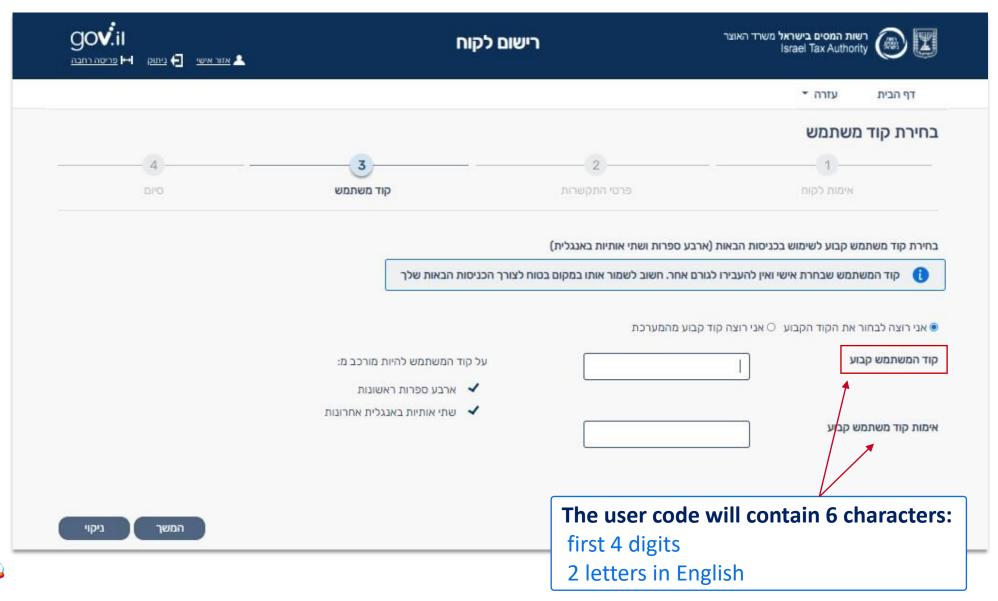

Filling email address

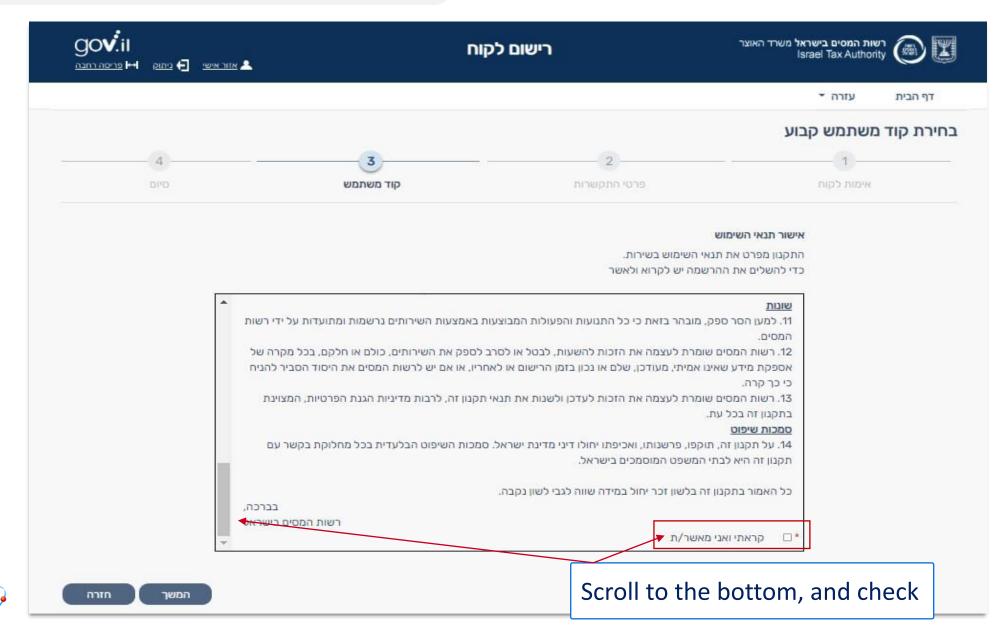

Selecting **Or** receiving a user code

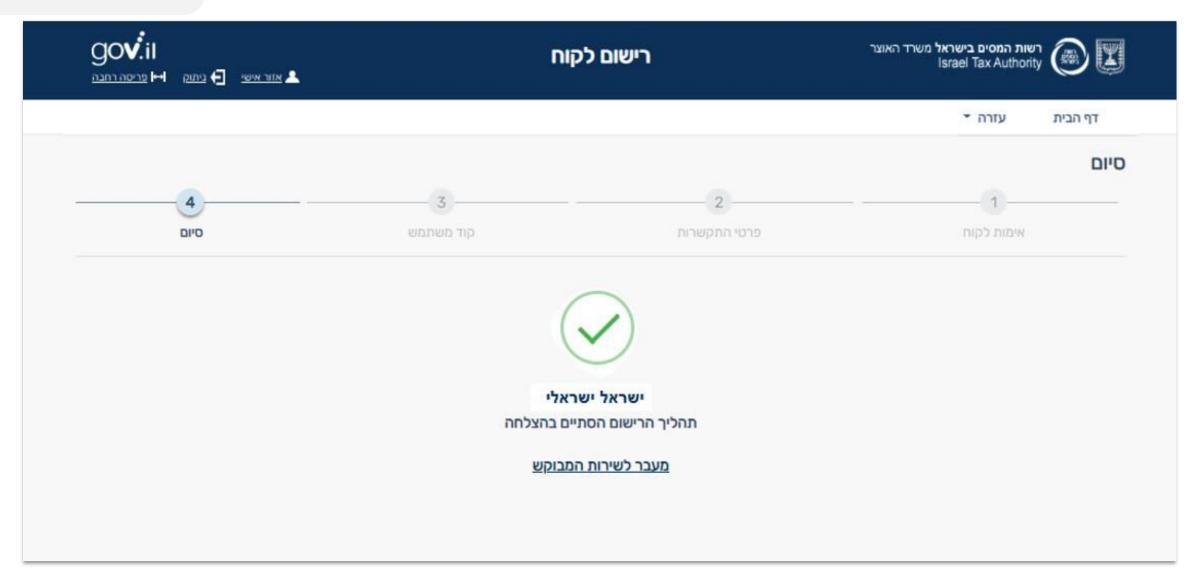

Accept Terms of Use

רישום/עדכון עבור התאגיד

* מספר התאגיד

השירות מאפשר לרשום תאגיד רשמי (רשום במרשם מוכר), לביצוע פעולות ולשירותים

מקוונים ברשות המסים.

המשך

רשאים לרשום את התאגיד, בעלי תפקידים רשמיים המוגדרים ורשומים כחוק לפעול בשמו.

למשל: דירקטור בחברה בע"מ או שותף (נציג) בשותפת.

בהמשך התהליך, יש למלא את מספר טלפון וכתובת הדואר אלקטרוני שישמשו את התאגיד מול רשות המסים.

לאחר ביצוע הרישום ניתן להיכנס למערכת <u>הרשאות ו</u>להסמיך אחרים לפעול בשם התאגיד.

*בשלב זה, ניתן לפעול בשם תאגידים מסוג חברות ושותפויות רשומות.

App API Registration

Invite developers to the portal (via link)

Setting up ORGANIZATION in the developer portal

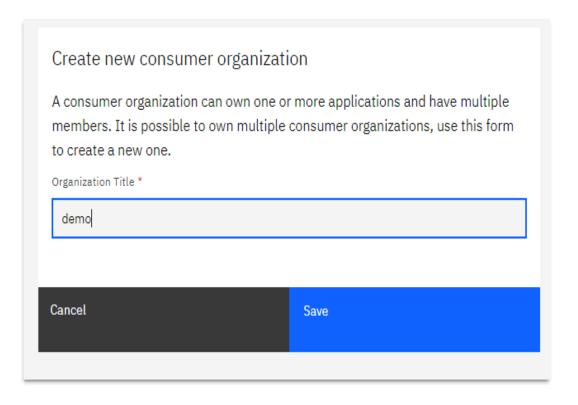

TO CREATE AN ORGANIZATION IN THE DEVELOPERS' PORTAL, CLICK "CREATE NEW ORGANIZATION".

Setting up ORGANIZATION in the developer portal

ENTER THE NAME OF THE
"DEVELOPMENT GROUP"
IN THE CONSUMER ORGANIZATION
FIELD

IMPORTANT:

- YOUR COMPANY CAN BE ASSIGNED SEVERAL ORGANIZATIONS (TO ALLOW ACCESS BY MULTIPLE ADMINS).
- EACH ORGANIZATION REQUIRES ITS OWN REGISTRATION REQUEST AND DESIGNATED ADMIN.

The user who created the "organization" is defined as admin and should be compliant with the "admin" defined in the software registry system

Setting up ORGANIZATION in the developer portal

AFTER RECEIVING AN ORGANIZATION REGISTRATION CONFIRMATION EMAIL FROM THE TAX AUTHORITY, YOU CAN SEE THE "ORGANIZATION" NEXT TO THE USER ON THE TOP RIGHT.

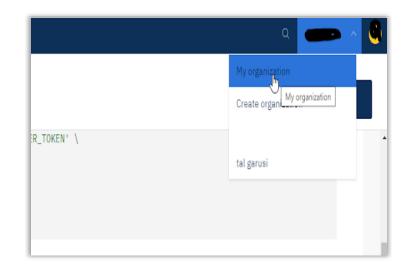

ENTER YOUR ORGANIZATION'S PAGE TO INVITE USERS IN DIFFERENT ROLES (VIEWERS, DEVELOPERS).

Invite Developers

IN ORDER TO GIVE ACCESS TO SEVERAL DIFFERENT DEVELOPERS ON THE "ORGANIZATION", AND IN THE FUTURE ON THE APPLICATIONS ASSOCIATED WITH YOU, THE "ADMIN" WHO CREATED THE "ORGANIZATION" CAN INVITE ADDITIONAL DEVELOPERS TO WORK ON THE PORTAL:

1. CLICK YOUR USER NAME TO OPEN THE MENU. SELECT "MY ORGANIZATION"

2. ON THE PAGE THAT OPENS, PRESS THE "INVITE" BUTTON

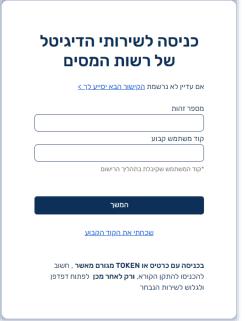

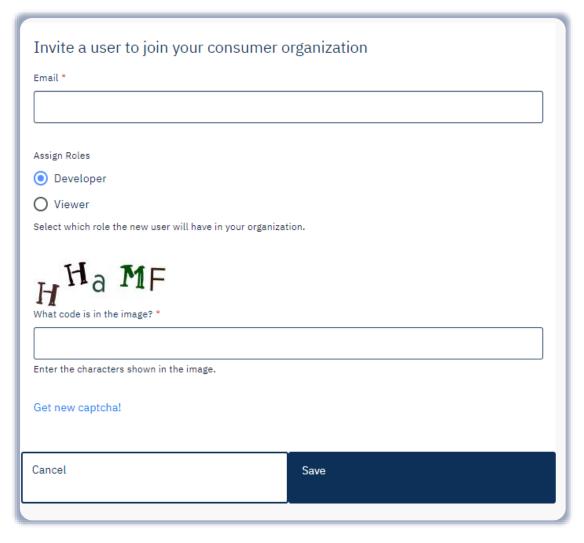

Invite Developers

3. ENTER THE EMAIL ADDRESS OF THE USER YOU'D LIKE TO ADD.

DEFINE THE ROLE OF THE REQUESTED USER

4. DEVELOPERS WHO HAVE BEEN INVITED WILL BE ABLE TO ACCESS THE PORTAL BY CLICKING ON THE LINK, PROVIDED THEY HAVE THE TAX AUTHORITY USER.

Adding an App to "ORGANIZATION"

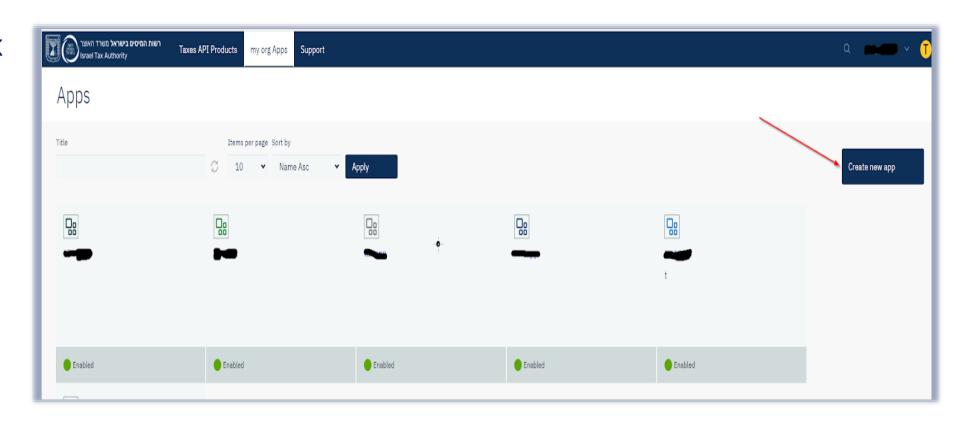

EVERY REQUEST TO THE TAX AUTHORITY API REQUIRES SENDING THE CLIENT ID THAT UNIQUELY IDENTIFIES THE APPLICATION FROM WHICH THE REQUEST WAS MADE.

STEPS FOR ADDIND AN APP:

ON THE TOP MENU, CLICK "MY ORG APPS".

PRESS THE BUTTON:

CREATE NEW APP

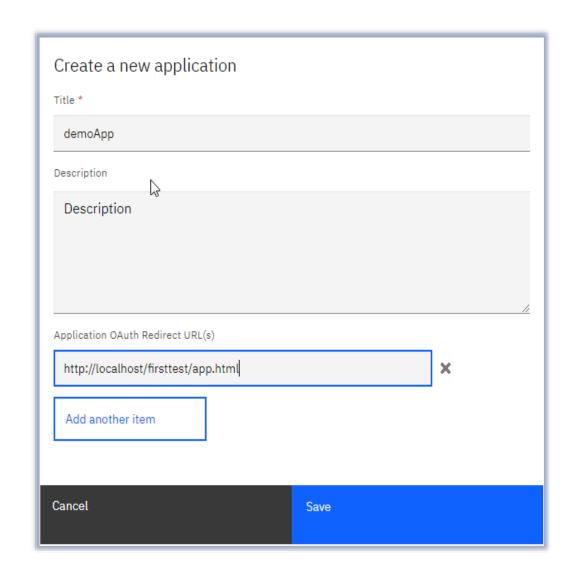

Adding an App to "ORGANIZATION"

PLEASE PROVIDE THE APP NAME, DESCRIPTION, AND ADDRESS FOR OAUTH REDIRECT, WHICH WILL BE USED BELOW FOR END-USER IDENTIFICATION.

USERS OF THE SYSTEM WILL BE REDIRECTED TO THIS ADDRESS AT THE END OF THE IDENTIFICATION PROCESS WITH THE TAX AUTHORITY.

Multiple addresses can be entered in this field

IF YOUR SYSTEM IS INSTALLED LOCALLY, ENTER HTTP://LOCALHOST:

Adding an App to "ORGANIZATION"

AFTER CLICKING "SAVE", YOU'LL SEE A SUMMARY OF YOUR APPLICATION'S PARAMETERS:

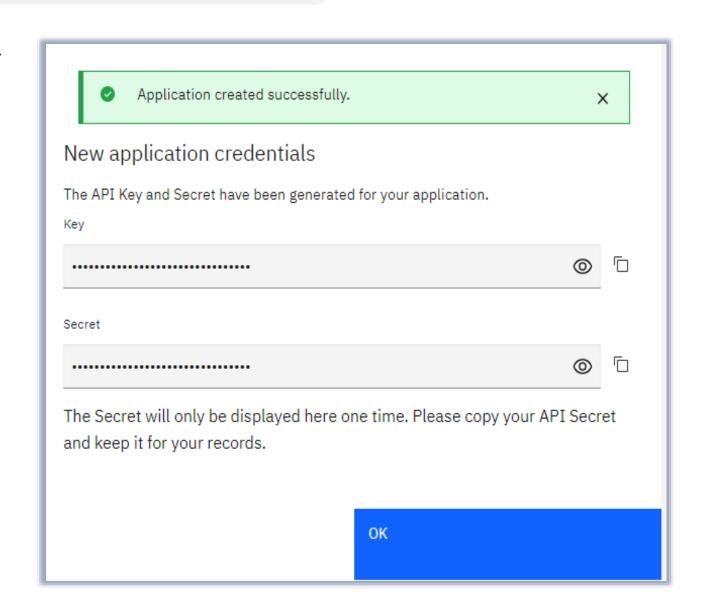

CLIENT ID (KEY)

CLIENT SECRET

THE SECRET IS NOT RECOVERABLE BUT ONLY REPRODUCIBLE.

KEEP IT IN A SEPARATE, SECURE FILE.

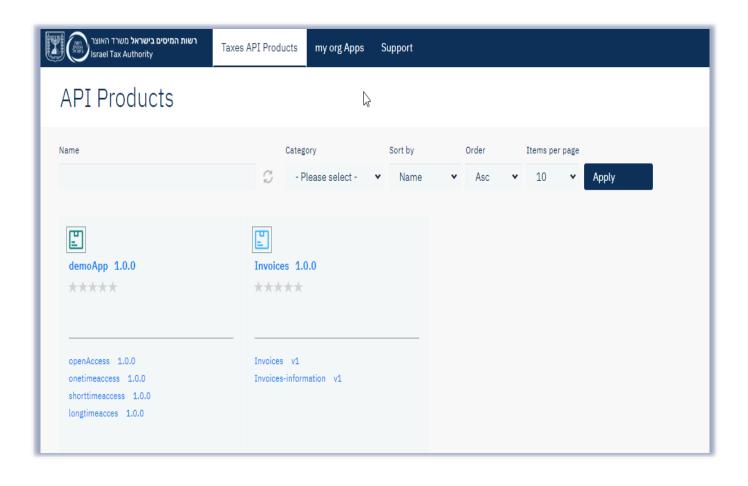

THESE IDENTIFIERS ARE USED TO GENERATE TOKENS; THEY MUST BE COPIED AND STORED IN ACCORDANCE WITH THE INFORMATION SECURITY GUIDELINES.

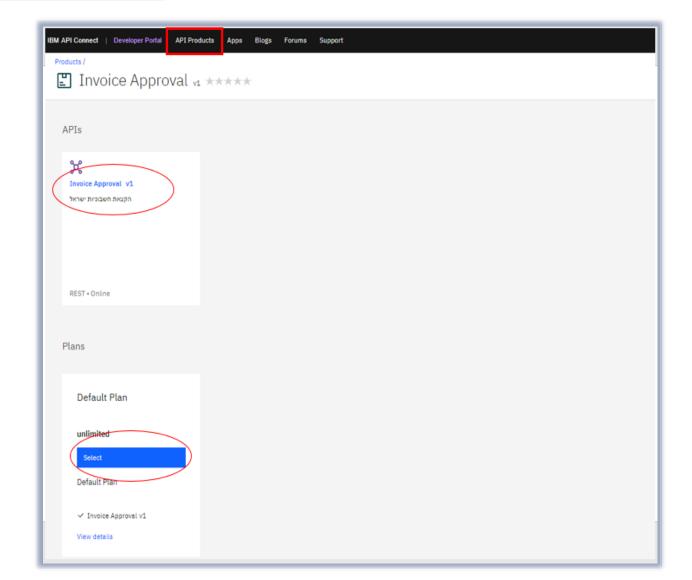

PLEASE UPDATE YOUR DEVELOPMENT PORTAL WITH A LIST OF ALL APIS YOUR APPLICATION WILL REACH OUT TO.

SELECT THE TAXES API PRODUCT OPTION FROM THE TOP MENU. YOU'LL SEE A LIST OF ALL AVAILABLE PRODUCTS.

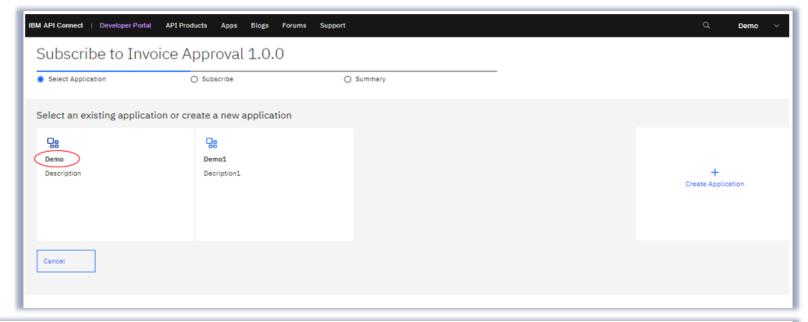

CHOOSE THE APPLICATIONS YOU'D LIKE TO SUBSCRIBE TO THE SERVICE (FROM THE APPLICATIONS YOU ADDED TO YOUR ORGANIZATION).

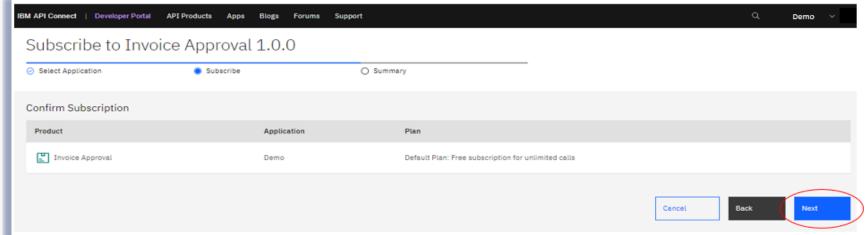

CHOOSE THE APPLICATIONS YOU'D LIKE TO SUBSCRIBE TO THE SERVICE (FROM THE APPLICATIONS YOU ADDED TO YOUR ORGANIZATION).

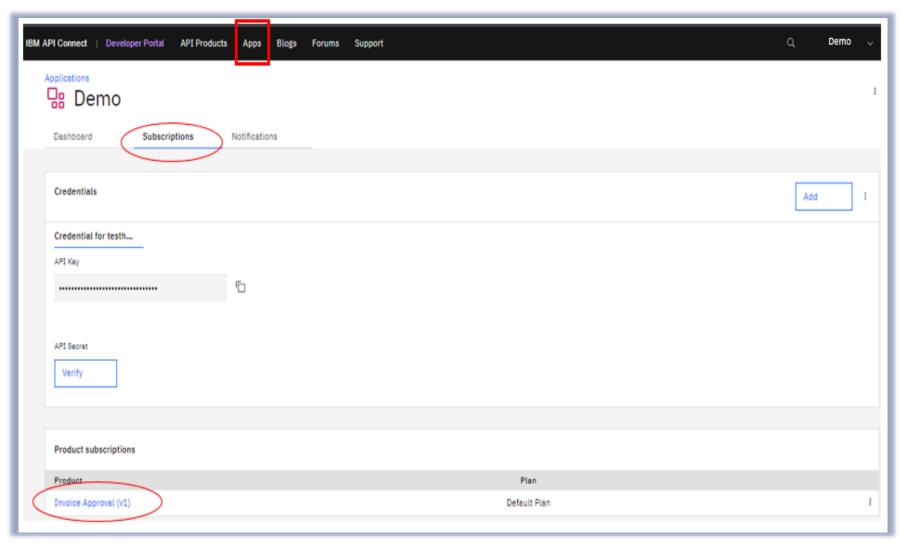

CONFIRM YOUR CHOICE.

CHECK THAT THE SERVICE HAS BEEN ADDED TO YOUR APPLICATION

Working with the developer portal – PROD – only after customer service confirmation

Types of Services

The services published in the developers' portal have different access requirements:

- Services without identification OPEN ACCESS
- Services with identification (ONE TIME/LONG TIME)

Contacting a service activation with identification must be done with a custom token.

Each service in the developer portal has documentation specifying what type of token is required for its operation (ONE TIME/LONG TIME) and at what address it can be generated.

Contacting the Tax Authority API must include

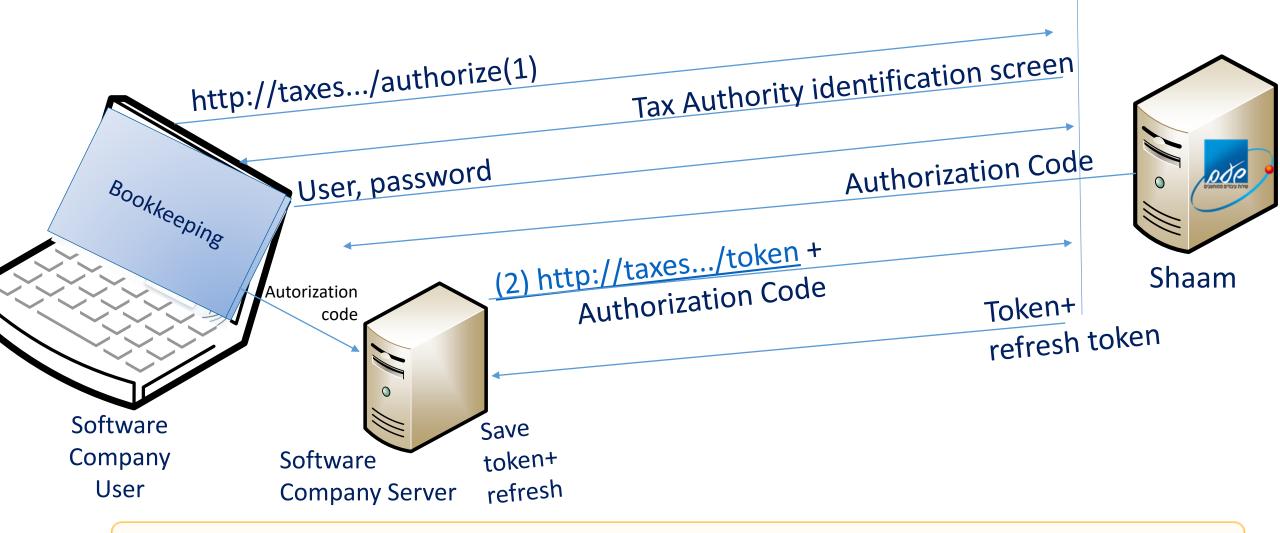

Client ID – identifies the software company's application Valid Token – that identifies the end user authorized to operate from the business

Creating a token will only be possible after subscribing to the service. (1)

The process of producing the new token – including identification with the Tax Authority

Token issuance follows Oauth2 protocols and is a two-step process:

1. Obtaining an authorization code - Attention, please run this ticket in the browser:

https://openapi.taxes.gov.il/shaam/tsandbox/longtimetoken/oauth2/ authorize?response type=code&client id=1111&scope=scope

Enabling this command will open the Tax Authority identification screen.

Upon successful completion of identification, the identification code will be returned **in the URL line.**Please extract it and use it to contact it from the server to receive the token

2. Obtaining a token

<u>Before contacting</u> to receive the token, concatenate the values of ClientID- and client secret with the character ":" Between them – and convert the entire string to base64 and pass the result in the header as detailed below.

Post referral to:

```
http://openapi.taxes.gov.il/shaam/tsandbox/longtimetoken/oauth2/token

Body:"grant_type=authorization_code&code=" + authorizationcode +
"&redirect_uri=" + redirectURI + "&scope=" + scope
```

ADD THE FOLLOWING HEADERS:

```
HEADER KEY: "authorization" HEADER VALUE: "Basic " + btoa(clientId + ":" + clientSecret)

HEADER KEY: "content-type" HEADER VALUE: "application/x-www-form-urlencoded"
```

3. Upon successful contact for obtaining a token, you will receive a 200 response refresh token+token in the following structure:

```
"token type": "Bearer",
"access_token":
"AAIgODc1NDZkMjYxODc5OTQ2M2IyNzR1YTJ1YzAyY2EyZWGludHMfa1GoER70OHaqMlo-
Zuvh-QjfCuAAJEImTwPoCeBpFZulB0Ah-
X7cwvzjLUYC 0ATAEiJ5JHfsfntUSt7yduMbl0GHITnSkTsEW08Q",
"scope": "scope",
"expires_in": 601,
"consented_on": 1697447399,
"refresh_token":
"AAIwohvlloxgLvRYkcpn01w25EzIV81Xq0ecGm77VH3z2nUtjdr0 crA4mmPcOP3dKYs3tzz
FNu tnPvjvC5hfwcGgFlWO32MlFvLLngFimq8g",
"refresh_token_expires_in": 7776000
```

access_token - used for API inquiries - can be used for as long as it is valid
expires_in - Token expiration in seconds

Refresh-token – Used to create a new token without user identification after the token has expired consented_on – The number of times a new token can be generated without identification

Attention:

Refresh token can be generated without identifying the user as the above number or at the end of 3 months – whichever comes first.

Refresh token is for **one-time** use for information security reasons.

After using it, a new refresh token is produced which must be saved for the next generation.

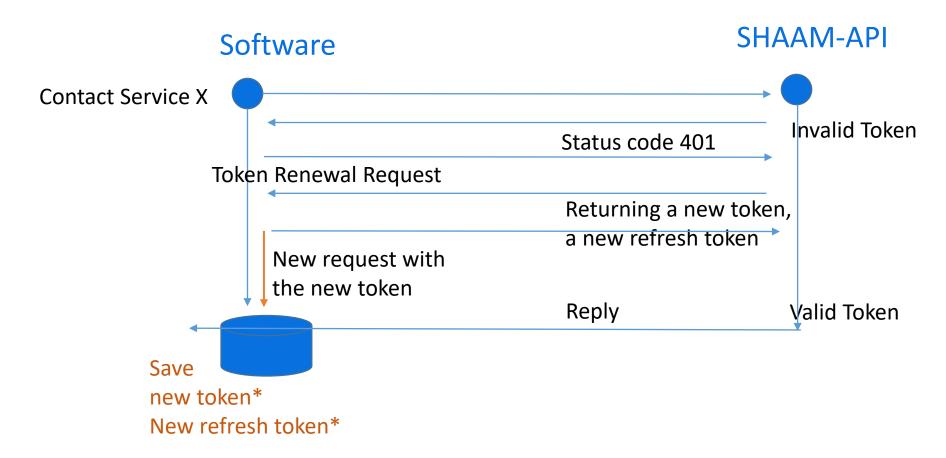

refresh_token: Used to create new tokens + refresh token without user identification when the token has expired

refresh_token_expires_in: Refresh token expiration time in seconds – during this time you can generate a new token without user identification using the refresh token.

If you did not use the refresh token during this time, user identification will be required

Token renewal process using refresh without the need for identification with the Tax Authority

Attention! The old token can still be used as long as it is valid, even though a new token has been issued

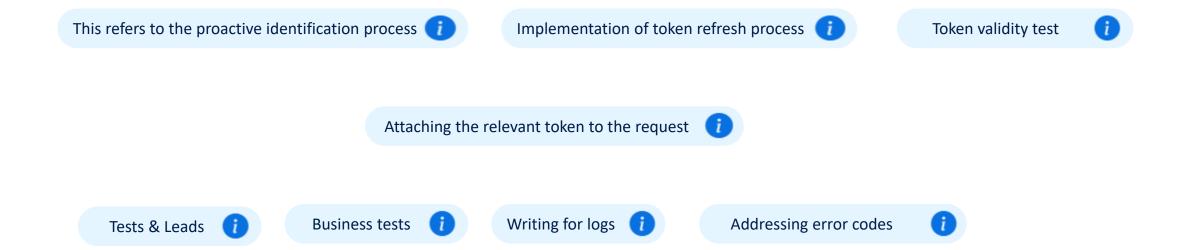

The service request structure with a valid token

Taxes Open API - Highlights

When it comes to longtimetoken – it is recommended to allow "re-identification" separately and remind the authorized persons to perform the process before the token expires

Recommendations for Businesses

Do not wait until the last minute to "renew a contract" with the Tax Authority

Authorize multiple employees for action (i)

Important Links

- For questions about the registration process, please contact the Shaam Software Companies customer service team at: lakohot-bt@taxes.gov.il
- For operational, technical/professional questions, please contact the Shaam API Support Center By phone 02-5688444 or by email: APIsupport@taxes.gov.il,
 Support will be provided Sunday through Thursday from 8:00AM to 5:00PM
